

Hey, Mom & Dad!

One decision can take
your child out of play!

The flu is serious. It disrupts lives causing children to miss out on daily activities or special events. On average in the U.S., more than 38 million days of school and 5 million sporting events are missed EACH YEAR due to the flu! Annually, the flu causes more than 20,000 children to be hospitalized.

The flu vaccine is the safest and most effective way to protect your family from the flu. Everyone 6 months of age and older should get vaccinated every year.

Ask your doctor about the flu vaccine today!

It's Not 'JUST' the Flu - It's a Serious Disease!
